Re: Bates College

Dear Tony:

I would like to personally thank you and your team for helping to make Bates College a great construction project to this point.

We can always count on your team to help push the schedule no matter what job we are working on and you continue to do-so on this job. Your foreman has done an excellent job in driving the schedule and has been key to this job.

Please extend my thanks to your team who has helped make this project progress in a successful manner.

We look forward to working with you on future projects.

Sincerely
Consigli Construction Company, Inc.

Anthony Consigli
President
