Re: 2009 Build Maine Awards, Bates College Dining Commons

Dear Shawn,

Thank you for being part of the team responsible for winning a 2009 Build Maine award from the Association of General Contractors in Maine recognizing the Bates Dining Commons project. This was a challenging job, and your craftsmanship, professionalism and diligence were integral in its success.

At this year's award dinner, on April 15<sup>th</sup> at the Civic Center in Augusta, we were able to distribute the enclosed flyer to all those in attendance. Many of those in attendance were General Contractors and building owners. We listed your name as one of the key contributors to the project team, and we're pleased to share this honor with you. We hope to be able to work with you again soon.

I look forward to future successful partnerships. Congratulations and thank you again!

Sincerely,  
**Consigli Construction Co., Inc.**
